Hudnu

Full Stack Engineer

April 2016 - January 2018 (1 year 10 months)

A fabulous programmer can dramatically improve your project, a poor one might create logic bombs, which may explode immediately or lay in wait for another day.

Built numerous large-scale RoR, Python and MERN, MEAN Websites on the freelancer platform.

Previous works.

## AiRo Digital Labs

### Frontend Web Developer

April 2012 - January 2016 (3 years 10 months)

Chicago, Illinois, United States

- Created a web service that connects Django's default DB with a separate CRM system. That's was made via SOAP requests and WSDL service from our side. Optimized DB queries so managers can quickly download users reports. Most of the SQL queries was made in triggers and procedures to increase response time.
- Ecommerce projects with React, Angular, AWS, Node, Laravel for petrol services, POS system
